

# Boat Cover Installation Instructions

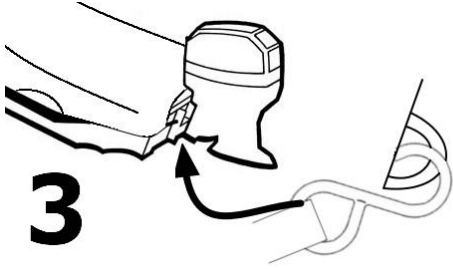

**1**

- Place the bow end of the rolled cover on or near the bow of your boat and unroll towards the stern.
- Hook the front of the cover over the bow.

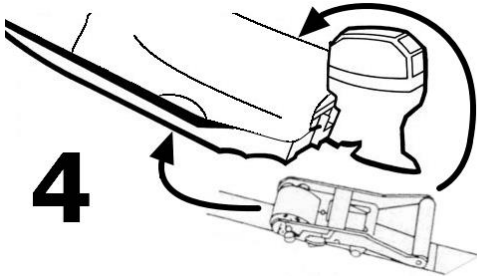

**2**

- Open the cover to the sides as you work towards the back of the boat.
- Install support poles as needed while unrolling the cover.

**3**

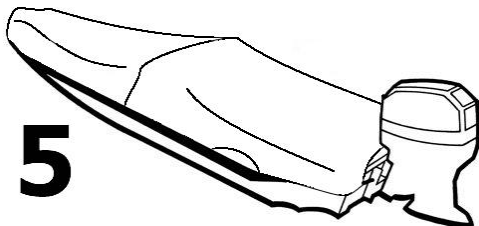

- Secure the cover over the rear of the boat.
- Fasten BOTH strap hooks to a secure tiedown point at the rear of the boat.

**4**

- Slightly tension ONE ratchet.

*NOTE: Insert the free end of the strap through the mandrel slot in the ratchet and pull through until the strap is snug around the boat prior to tensioning the ratchet.*

**5**

- Check that the cover is secured properly on all corners.
- Tighten SECOND ratchet completely.
- NOTE: A minimum of two wraps of webbing around the mandrel is required.*
- Tighten FIRST ratchet completely.

**Releasing Ratchet Tension:** Pull on Lock Release Handle and rotate main handle 180° to lock in the open position. Mandrel will be free to turn and release webbing.

**Storing the Cover:** Fold the cover in on itself towards the middle of the boat from the sides and roll the cover from the rear of the boat towards the front (this will ensure your cover is ready to be reinstalled easily when needed again).
